

- PENDANTS: nine
- MOUNTING: white powder coated rectangular canopy 1200mm (47.2") x 224mm (8.8") x 53mm (2") deep
- LAMPING: 1.5w LED or 20w xenon
- COAX: adjustable. 3000mm (10') standard / up to 30500mm (100') maximum
- MATERIALS: blown glass, braided metal coaxial cable, electrical components, white powder coated canopy
- WEIGHT: approximately 16kg (35lb)
- TRANSFORMERS: integral

## DESCRIPTION

28.9 is a linear configuration of nine 28 pendants hung from a rectangular canopy. The result is an ambient installation or field of light. The pendant drop lengths on this fixture are adjustable up to the specified maximum.

28 is an exploration of specificity in manufacturing. Instead of designing form itself, the intent was to design a system of making that yields form. Individual 28 pendants result from a complex glass blowing technique whereby air pressure is intermittently introduced into and then removed from a glass matrix which is intermittently heated and then rapidly cooled. The result is a distorted spherical shape with a composed collection of imploded inner shapes, one of which acts as a shade for the light source.

Standard 28s are made with clear glass exterior spheres and milk white interior lamp holder cavities. 28s are possible with infinite versatility in colour compositions, sizes and shapes.

## NOTES

- + Purchase replacement lamps online at [www.bocci.ca/lamps](http://www.bocci.ca/lamps)
- + Unless otherwise noted when ordering, all fixtures will be outfitted to be xenon compatible
- + As an alternative to a built-in transformer, Bocci recommends mounting transformers remotely in an easily accessible and hidden location for ease of long-term maintenance.
