All of our wood finishes are treated with our very own special formulation of oils and polished with our Wood Butter, a unique oil & wax compound painstakingly rubbed by hand to give each piece a protective shine and soft, silky feel. \*Please note: Finishes other than our standard 'Natural' finish may incur added costs. Requests for physical samples are subject to availability. Physical samples provided are a small sample size and may not be representative of your piece. Lumber is a natural material; coloration, grain patterning, and natural imperfections may vary from board to board.\*
