**CONNECTION** Adjustable lengths hardware (21.1 to 21.7): cable lengths can be set and re-set on site using an Allen key. Each pendant comes standard with 10' of coax cable. Canopy attaches directly to standard junction box.

Non-adjustable lengths hardware (21.11 to 21.61 & custom): allows the installer to attach the canopy to the ceiling before "plugging in" the individual pendants one by one. Longest and shortest lengths are determined by client and fabricated by Bocci. Note: there may be variance of ±2" on specified shortest and longest lengths.

**OPTIONS** Extra coax lengths - per 10' increment (Maximum length is 100') \$20

Brushed nickel or white powder coated adjustable lengths canopies: 21.1 - 21.7

Lamps and power supplies included. Please specify 20w xenon or 1.5w LED.

**CUSTOM** See custom price list for custom orders

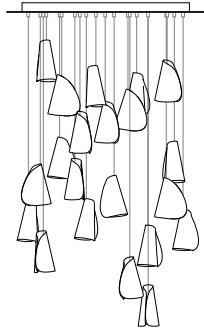

**NOTES**

Specified shortest and longest lengths are from the underside of the canopy to the bottom of the pendant.

Bocci recommends mounting power supplies remotely in a close, accessible and hidden location for ease of long term maintenance. Installation to be done by certified personnel to ensure code compliance.

\*\*21.1m/mi/mo require power supplies to be remote mounted.
